

HARNESS THE POWERFUL AVL SIMULATION PORTFOLIO

The AVL Token License System

- Enables the use of multiple software products
- Offers seamless shifting between products and applications
- Easy access to new software capabilities
- Provides access to all features of the installed products
- Increases license utilization

At a glance – here is what 35 Tokens can do for you in Powertrain Electrification:

xEV=System BAT=Battery FC=Fuel Cell ED=E-Drive

- System
AVL CRUISE™ M
- Multi-body Dynamics
AVL EXCITE™
- Fluid Dynamics
AVL FIRE™ / FIRE™ M

Tokens shown for Fluid Dynamics tasks refer to simulations running on a single core. Each additional core requires additional 0.5 Tokens.
