

First Announcement

9th AVL International Commercial Powertrain Conference

May 10th - 11th, 2017, Helmut-List-Halle, Graz, Austria

Organized by AVL in cooperation with **SAE** *International*

PROGRAM PREVIEW

The 9th AVL International Commercial Powertrain Conference will be held on May 10th - 11th, 2017 at the Helmut-List-Halle in Graz, Austria.

The conference is globally unique, focusing jointly on truck and bus, agricultural tractors and construction machinery. It is an important information platform and an attractive forum for the exchange on topics relating to strategies and technologies.

The 2017 ICPC conference is entirely dedicated to CO₂ reduction and innovations improving operating efficiency.

Keynotes representing the three commercial powertrain industries give an overview of world-wide trends in industry and technology, highlighting the resulting company strategy and management focus.

Main Topics for the Technical Sessions

Truck and Bus

- Connected vehicles
- Zero emission trucks
- Electric drive and battery development trends

Agricultural Tractors

- Cost-efficient solutions for engines <56kW
- Robotics & automation assistances
- Electrification

Construction Machinery

- CVT Transmission
- Driver assistance systems
- Potential of electrification and hybridization

CONFERENCE DETAILS

Date & Venue

Wednesday, May 10th from 8:30 to 18:30
(open for registration from 7:30)
