

AVL CONCERTO 5™ - Release Information

Some of the new features of AVL CONCERTO 5.5™:

Formula/Script Editor

- Secure your IP with encryption of Python files
- Localize your scripting with UTF-8 support

GIS Object Enhancements

- Intuitive and interactive manipulation of markers and labels on a visualized track

Data Format Extensions

- Big Data: Avro, Paque
- ADAS-Format: ABD files

Automation Service Enhancements

- Windows Server 2019 support and enterprise IT readiness

Security

- Password protected and encrypted PDF reporting

License Manager

- Improved license usage status overview

Open Graphical Objects

- Matplot-Lib & .Net Object integration for creation of your own visualization objects

Did you know? In your **Maintenance** or **Maintenance and Support** contract, all these updates (and more) are automatically included.

If your license does not cover Maintenance or Maintenance and Support, you can contact your sales contact to receive the latest version or upgrade to a service contract.
