

11th Int. Symposium on Development Methodology
November 11 – 12, 2025 | Wiesbaden | Germany

PROGRAM COMMITTEE

Prof. Christian Beidl
Technical University
Darmstadt

Dr. Moritz Frobenius
AVL Deutschland GmbH

Dr. Wolfgang Puntigam
AVL List GmbH

Christopher Christ
AVL List GmbH

Dr. Olaf Herrmann
DENSO Automotive
Germany GmbH

Peter Renninger
Daimler Truck AG

Dr. Timo Combé
Dr. Ing. h.c. F. Porsche AG

Roland Jeutter
AVL Deutschland GmbH

Prof. Bernhard Schick
Kempten University of
Applied Sciences

Prof. Tobias Düser
Karlsruhe Institute of
Technology

Eike Martini
Magna Powertrain GmbH
& Co. KG

GENERAL INFORMATION

DATE & VENUE
November 11 – 12, 2025, Kurhaus Wiesbaden,
Germany

TICKETS	
Registration fee	1,250,- Euro
Early bird (until July 25, 2025)	1,100,- Euro
University members	690,- Euro
Co-Speakers	550,- Euro
Speakers	Free

CONFERENCE LANGUAGES
German and English (simultaneous translation)

REGISTRATION AND FURTHER INFORMATION

Conference Program – November 11, 2025

Keynote; Chairman: Prof. C. Beidl – Technical University Darmstadt			
08:45	Welcome and Opening of Symposium R. Jeutter – AVL Deutschland GmbH		
09:00	Data and AI-Driven Engineering: Digital Transformation in China’s Automotive Industry Dr. S. Haasis – HaasisDEC		
09:30	Opportunities and Challenges Under China’s New CCC Access Rules for the Automotive Market Y. Liu – CATARC Europe testing and certification GmbH		
10:00	Coffee Break		
	Session 1A: Processes/Methods/System Engineering; Chairman: R. Jeutter – AVL Deutschland GmbH	Session 1B: Combustion Engine; Chairman: P. Renninger – Daimler Truck AG	
10:30	Feature-Driven eDrive Development: A Consistent Way to Handle Complexity Dr. M. Braband – eMoveUs GmbH	10:30	Virtual Test Benches: A New Platform at Rolls-Royce Power Systems for the Efficient Development of Modern Propulsion and Energy Solutions Dr. S. Fritz, P. Mayinger – Rolls-Royce Power Systems AG; S. Lange – AVL Germany GmbH
11:00	Ensuring Consistency in CPS Engineering: Braking Systems as a Research Platform S. Schwarz, L. Gesmann, T. Völk, K. Bause, Prof. A. Albers, Prof. T. Düser – IPEK - Karlsruhe Institute of Technology	11:00	Model-in-the-Loop Simulation for Model Predictive Controlled High-Pressure Direct Injection Dual-Fuel Engine Combustion Control Prof. W. Yu, Prof. F. Zhao – Shandong University

11:30	AI-Assisted System Engineering in the Automotive Industry Dr. C. Patz, F. Martinez, S. Reuter – Valeo S.A.	11:30	The New, Fully Automated Design Process for Turbocharger Compressors at Daimler Truck AG D. Schwarz, Dr. G. Nakov – Daimler Truck AG; R. Martinez-Botas – Imperial College London
12:00	From Weeks to Hours – AI-Powered Vehicle Concept Development M. Oswald N. De Kerpel, J. Schlager – AVL List GmbH; K. Lee, S. An – Hyundai Motor Company	12:00	Simulation-Driven Approach to Identify Load-Limiting Combustion Anomalies in H ₂ ICE B. R. Kinkhabwala, Prof. T. Koch, Dr. U. Wagner, J. Ziegler – Karlsruhe Institute of Technology KIT
12:30	Lunch Break		
	Session 2A: SDV; Chairman: Dr. W. Puntigam – AVL List GmbH	Session 2B: Fuel Cell; Chairman: Dr. O. Herrmann – DENSO Automotive Germany GmbH	
14:00	Safeguarding Over-the-Air Updates Dr. K. Grüttner, H. Schlender, Dr. R. Stemmer, Dr. B. Westphal – German Aerospace Center	14:00	Methods to Develop Pem Fuel Cell-Based Powertrains for Regional Aircraft Dr. D. Murschenhofer, Dr. C. Bänsch – German Aerospace Center
14:30	Implementing DevOps Principles in Automotive Testbed Environments M. Hollander, T. Ebner, R. Guggi, M. Kainz – AVL List GmbH	14:30	Development of an Integrated Fuel Cell System Simulator “FC-DynaMo” S. Hasegawa – Toyota Motor Corporation; Dr. S. Kim – Tokyo University of Agriculture and Technology; Dr. M. Kawase, M. Kageyamaya – Kyoto University
15:00	Ride the Wave of Continuous Testing A. Furtner, M. Delp, Dr. G. Gnokam, Dr. S. Reuter– Schaeffler AG	15:00	Optimizing the Efficiency-vs-Degradation Trade-off of a PEM Fuel Cell S. Scheidel, Dr. A. M. Reiter – AVL List GmbH

15:30	Coffee Break	
	Session 3A: SDV; Chairman: Dr. W. Puntigam – AVL List GmbH	Session 3B: Data Analytics; Chairman: C. Christ – AVL List GmbH
16:00	Advancing Connected Mobility: Drive Global by Virtual Road B. van Moergastel, S. Visser, R. Puts – DENSO Automotive Deutschland GmbH	16:00 Enhancing Testbed Efficiency With a Machine Learning-Based Approach – A Study Case E. Pagliara – Ferrari S.p.A.; G. Goretti, Dr. G. Marmorato, F. Tatti – AVL Italia S.R.L.
16:30	SiL From Concept to SOP and Beyond V. Kremer, C. Wang, Dr. T. Palentschat, P. Lautenschütz – Mercedes-Benz AG; Dr. D. Borjan, F. Eberhard, L. Lazzarini Monaco, K. Satici, S. Eder – AVL List GmbH; Prof. R. Wörner – Esslingen University	16:30 Boosting Testing Efficiency with AI-Driven Anomaly Detection for Battery Cell Testing Dr. N. Didcock, G. Schagerl – AVL List GmbH
17:00	Efficient Transformation – Lean Tools Instead of Large-Scale Overhaul Programs Dr. C. Tschirner – Two Pillars GmbH; H. Kim – Dentsu Soken Inc.	17:00 Empowering Calibration Engineers in the AI: A Revolutionary Toolchain for Seamless Integration of Advanced AI Models into Series Production ECUs A. Dey, H. Schmidt, Dr. T. Huber – ETAS GmbH

Conference Program – November 12, 2025

	Session 4A: ADAS/AD; Chairman: Prof. T. Düser – Karlsruhe Institute of Technology	Session 4B: E-Drive; Chairman: E. Martini – Magna Powertrain GmbH & Co. KG
08:45	Safe Driving via Predictive Assistance and Scenario-Based Validation C. Rohmann, B. Hoary, S. Scholz, Prof. H. Bachem – Ostfalia University of Applied Sciences; Dr. A. Waldmann – Ventus Technologies GmbH	08:45 Advancing E-Axle Technology: Testing and Validation of the RHODaS Power Converter and Integrated Motor Drive Prof. P. Bielaczyc – Cracow University of Technology; Dr. R. Sala – BOSMAL Automotive R&D Institute Ltd.; Dr. L. Romeral, Dr. D. Lumbreras – Universitat Politècnica de Catalunya
09:15	Advancing Interoperability in Automotive Testing with ASAM Test Specification M. Lang – ASAM e.V.	09:15 Machine Copier – Fast, Easy and Precise Identification of Electrical Machines B. Pfeifer, Dr. P. Winzer, Dr. A. Schmitt – AVL SET GmbH
09:45	Method for Creating Digital Twins of Lidar Sensors in Autonomous Vehicle Systems A. Yousif, M. Amin-Saad, Dr. I. Stepanov – Valeo S.A.	09:45 AI-Enhanced Simulations in Automotive Engineering Dr. S. Wittek, Prof. A. Rausch, H. Eivazi – TU Clausthal
10:15	Coffee Break	
	Session 4A: ADAS/AD; Chairman: Prof. T. Düser – Karlsruhe Institute of Technology	Session 4B: E-Drive; Chairman: E. Martini – Magna Powertrain GmbH & Co. KG
10:45	Lean Test Bench Solution for Functional ADAS/AD Testing D. Fischer, Prof. T. Düser, K. Bause, Y. Weber – IPEK - Karlsruhe Institute of Technology	10:45 Beyond Data Correlation: Understanding and Predicting Battery Aging with Fast, Physical and Accurate Models Dr. J. Richter, Dr. L. Wehrle, Dr. B. Hauck – Batemo GmbH

11:15	ADAS/AD Validation via Vehicle-in-the-Loop: A Case Study on Autonomous Emergency Braking L. M. Otto, Prof. S. Müller – TU Berlin; A. Hartwecker – AVL Deutschland GmbH	11:15	Digital Twin: Automated xEV Component Modeling and Parameter Identification Y. Taguchi, J. Yasue, T. Suzuki – DENSO Corporation; P. Quinton, G. Vitale – AVL List GmbH; H. Akimatsu – AVL Japan K.K.
11:45	Efficient Validation of Advanced Control Functions on a Vehicle-In-The-Loop Test Bench Dr. L. M. Castellanos Molina, Dr. N. Amati, S. Favelli, Dr. A. Mancarella, Dr. O. Marello, F. Pesacane, E. Tramacere, Dr. M. Silvagni – Politecnico di Torino; R. Hettel, D. Nickel – AVL Deutschland GmbH	11:45	Boost Test Coverage and Keep Testing Speed Dr. M. Schmidt – AVL Deutschland GmbH; H. Hammerer – AVL List GmbH
12:15	Lunch Break		
	Session 5A: Data Analytics/AI; Chairman: Prof. C. Beidl– Technical University Darmstadt		Session 5B: Tools in Practical Use; Chairman: Dr. T. Combé – Dr. Ing. h.c. F. Porsche AG
13:30	Ultra-Fast AI-Driven Modeling of Automotive Powertrain Systems Using Long Short-Term Memory Networks Dr. Q. Yang, Dr. M. Grill, Prof. A. Casal Kulzer – Research Institute for Automotive Engineering and Powertrain Systems Stuttgart (FKFS)	13:30	xCU in the Loop – Continuous Model Approach From MiL to HiL H. Zlojo, E. Mohs, M. Schrott – Hyundai Motor Europe Technical Center GmbH; A. Gahunia, V. Nottrott, Dr. A. Kuznik – AVL List GmbH
14:00	Data-Driven Estimation & Control: Improving Clutch Thermal Models for Electrified Dual-Clutch Transmission (eDCT) F. Ayachi, R. Biesmans, R. Nandyala, S. Basstanie, P. Danckers, D. Vanbaelen – Stellantis e-Transmissions	14:00	Taxonomy for Control Behaviour of Driving Robots for Chassis Dynamometer Tests M. Gröbsch, B. Welker, A. Rieger, M. Gröbsch, Dr. T. Combé – Dr. Ing. h.c. F. Porsche AG

14:30	Optimizing Vehicle Development Through Data-Driven Approaches and AI-Models T. Ikemiya – Toyota Motor Corporation; N. De Kerpel, Dr. J. Zehetner – AVL List GmbH; H. Akimatsu – AVL Japan K.K.	14:30	Co-Simulation of Refrigerant Circuits on the HiL-Thermolab Testbed as Part of a Holistic Development Methodology for Thermal Management Systems L. V. Fiore, Prof. C. Beidl, E. Stenger, N. Weimer, P. Lavall – Technical University Darmstadt; A. Vondrák – Garrett Motion Inc.; L. Acker, Dr. J. Konrad – Technical University Vienna
15:00	Global Automotive (R)Evolution: AI-Powered Speed and Transformation Dr. M. Baumann – Bosch Engineering GmbH	15:00	Cutting-Edge Optimization of Torque Vectoring Functions Using SiL and Advanced Methodology S. Dhingra – Jaguar Land Rover Ltd.; M. Hollander, S. Gopi – AVL List GmbH
15:30	Room Change		
	Keynote; Chairman: R. Jeutter – AVL Deutschland GmbH		
15:40	What Marks an Automotive Proving Ground as „Modern“?		
16:10	Security in the Age of AI		
16:40	Closing Remarks		
	Prof. C. Beidl – Technical University Darmstadt; R. Jeutter – AVL Deutschland GmbH		
16:50	End of Symposium		

Sponsors

Our sponsors support free conference participation for students. If you would like to make contact with industry representatives during your studies and deepen your specialist knowledge by taking part, please send an email to entwicklungsmethodik@avl.com.

We would like to thank this year's sponsors Daimler Truck, Denso, Magna and AVL!
